Solution of an equation. Every equation in the unknown x may be rewritten as $=$ by regrouping all terms in the left-hand side. It follows that the solutions of such an equation are exactly the zeros of the function. In other words, "zero of a function" is a phrase denoting a "solution of the equation obtained by equating the function to 0," and the study of zeros of functions is exactly the same ...

Zero of a function - Wikipedia

In probability theory, an event is a set of outcomes of an experiment (a subset of the sample space) to which a probability is assigned. A single outcome may be an element of many different events, and different events in an experiment are usually not equally likely, since they may include very different groups of outcomes. An event defines a complementary event, namely the complementary ...

Dual Credit classes are classes where students are enrolled at Furr and at Houston Community College at the same time and earn grades and credits for the same class at each institution. Students can graduate with an Associate's degree or a Level 1 certificate, complete the 42 hour University Core, or just begin to accumulate academic college credits.
