History. The first inklings of Western tasseography can be traced to medieval European fortune tellers who developed their readings from splatters of wax, lead, and other molten substances. This evolved into tea-leaf reading in the seventeenth century, a short time after Dutch merchants introduced tea to Europe via trade routes to China.. Scotland, Ireland, Wales and England have produced a ...

Readership and circulation. For print media, the two main measures of audience are readership and circulation. Circulation relates to the number of copies circulated to the public. Readership is the number of readers - either of a specific issue of the publication, or over a certain time period, such as 3 months. Circulation is measured from sales figures, but readership is measured from ...
