There are three excellent reviews of supply chain contract analysis prepared by Cachon (2003), Lariviere (1998) and Tsay et al. (1998). These three reviews offer different perspectives in the following sense: Tsay et al. (1998) provide a qualitative overview of various types of contracts when the demand is deterministic and random; Lariviere (1998) shows quantitative analyses of different types ...

1. Introduction. Optimal supply chain performance requires the execution of a precise set of actions. Unfortunately, those actions are not always in the best interest of the members in the supply chain, i.e., the supply chain members are primarily concerned with optimizing their own objectives, and that self-serving focus often results in poor performance.
