precalculus. Above that, we aim for greater command of the material, especially the ability to extend what we have learned to new situations. • This course aims to help you build the stamina required to solve challenging and lengthy multi-step problems. • As a rule of thumb, this course should on average take 15 hours of effort per week.

David continued further and wrote his first open textbook, Math in Society, a math for liberal arts majors book, after being frustrated by students having to pay \$100+ for a textbook for a terminal course. Together, frustrated by both cost and the style of commercial texts, we began writing PreCalculus: An Investigation of Functions in 2010.

This book is a great book. I am able to figure out most of the exercises from the the given examples and explanations, but some answers won't make any sense if the student hasn't been given previous experience, as lets say the distance from the origin is  $3\sqrt{3}$ ; which confused me at first, but for college freshmen is a little rough, especially in an early chapter.
