Best Answer: I am not all that familiar with the Princeton Review prep books but the book I would recommend to help you with the math section of the SAT is The PowerScore SAT Math Bible. It covers every question type tested on the math section and provides you with the most efficient methods for solving the problems.

### **Which Princeton Review book should i get to study for the ...**

Best Answer: I used the Princeton Review book for my AP World History exam and made a 4 on it. The reason I love Princeton so much is because in the book, it's like they're talking to you. As opposed to you just giving you questions and giving the explanation, the writers write in second person point of view so it's almost like an actual teacher is talking to you.
