Offshoring is the relocation of a business process from one country to another—typically an operational process, such as manufacturing, or supporting processes, such as accounting. Typically this refers to a company business, although state governments may also employ offshoring. More recently, technical and administrative services have been offshored.

Offshoring - Wikipedia

A small business that forms an LLC is required to register its name with the secretary of state's office. This prevents other businesses within the same state from registering themselves with the same or a similar sounding name.
