Inquiry-based learning (also enquiry-based learning in British English) is a form of active learning that starts by posing questions, problems or scenarios. It contrasts with traditional education, which generally relies on the teacher presenting facts and his or her knowledge about the subject. Inquiry-based Learning is often assisted by a facilitator rather than a lecturer.

How can classroom reading instruction help poor readers — indeed, all students — become more like good readers? Research suggests that the answer may lie in providing students with instruction that both teaches them the comprehension strategies that work so well for good readers and helps them to develop the necessary metacognitive awareness of how and when to use these
