United States corporate law regulates the governance, finance and power of corporations in US law. Every state and territory has its own basic corporate code, while federal law creates minimum standards for trade in company shares and governance rights, found mostly in the Securities Act of 1933 and the Securities and Exchange Act of 1934, as amended by laws like the Sarbanes-Oxley Act of ...

This article examines corporate debt values and capital structure in a unified analytical framework. It derives closed-form results for the value of long-term risky debt and yield spreads, and for optimal capital structure, when firm asset value follows a diffusion process with constant volatility. Debt values and optimal leverage are explicitly linked to firm risk, taxes, bankruptcy costs ...

Corporate Debt Value, Bond Covenants, and Optimal Capital ...

In the past 30 years, the art of corporate loan syndications, trading, and investing has changed dramatically. There was a time when banks lent to their corporate borrowers and simply kept those loans on their books, never contemplating that loans would be traded and managed by investors like stocks and bonds in a portfolio.
