Question And Answer For Learners

The question-answer relationship (QAR) strategy helps students understand the different types of questions. By learning that the answers to some questions are "Right There" in the text, that some answers require a reader to "Think and Search," and that some answers can only be answered "On My Own," students recognize that they must first consider the question before developing

A question is an utterance which typically functions as a request for information. Questions can thus be understood as a kind of illocutionary act in the field of pragmatics or as special kinds of propositions in frameworks of formal semantics such as alternative semantics or inquisitive semantics. The information requested is expected to be provided in the form of an answer.

A leading question is a type of question that implies or contains its own answer. By contrast, a neutral question is expressed in a way that doesn't suggest its own answer. Leading questions can serve as a form of persuasion. They are rhetorical in the sense that the implied answers can be an attempt to shape or determine a response.
