Dependency grammar (DG) is a class of modern grammatical theories that are all based on the dependency relation (as opposed to the relation of phrase structure) and that can be traced back primarily to the work of Lucien Tesnière. Dependency is the notion that linguistic units, e.g. words, are connected to each other by directed links. The (finite) verb is taken to be the structural center of ...

8. Analyzing Sentence Structure. Earlier chapters focused on words: how to identify them, analyze their structure, assign them to lexical categories, and access their meanings.

8. Analyzing Sentence Structure

FROM THE PREFACE TO THE FIRST EDITION. The object of this book is to present the essential facts of Latin grammar in a direct and simple manner, and within the smallest compass consistent with scholarly standards. While intended primarily for the secondary school, it has not neglected the needs of the college student, and aims to furnish such grammatical information as is ordinarily required ...

Bennett's New Latin Grammar - The Latin Library

In formal language theory, a context-free grammar (CFG) is a certain type of formal grammar: a set of production rules that describe all possible strings in a given formal language. Production rules are simple replacements. For example, the rule \rightarrow replaces with . There can be multiple replacement rules for any given value. For example,

Fun Grammar Activities Learning grammar has been compared to other fun things, like having teeth pulled or being assigned detention. But it needn't be a painful experience with these five lessons that help teach grammar without the hammer!

Grammar Lessons: Five Fun Activities | Education World

A Brief Introduction. Diagramming sentences has not been much in vogue as a pedagogical device for the past thirty years or so. There are, however, many grammarians and English instructors who hold that analyzing a sentence and portraying its structure with a consistent visual scheme can be helpful—both for language beginners and for those trying to make sense of the language at any level ...

This is a quick overview of the latest version of ANTLR and how to write a simple lexer/parser and listen to any matching parse events using a Java target. Listening to parse events is new to ANTLR 4 and makes writing a grammar much more concise.

ANTLR 4: using the lexer, parser and listener with example ...

Abstract. Selectors are patterns that match against elements in a tree, and as such form one of several technologies that can be used to select nodes in a document. Selectors have been optimized for use with HTML and XML, and are designed to be usable in performance-critical code. They are a core component of CSS (Cascading Style Sheets), which uses Selectors to bind style properties to ...
