A stroke—also called a cerebrovascular accident (CVA) or a brain attack—is a reduction or an interruption of the flow of blood through an artery to one or more areas of the brain within the territory supplied by that artery. The end result is varying degrees of neurological and/or cognitive malfunction lasting longer than 24 hours. A very severe stroke can cause sudden death.

The Physical Medicine and Rehabilitation QBank Review is physiatrist developed and run. The educational methodology used here is based on research concluding that questions and engagement are the best way to study.. Because the field of physical medicine and rehabilitation is so young, it is difficult to find a comprehensive and reliable question bank to help with exam preparation.
