Now in its 13th edition, Fundamentals of Financial Management maintains its dedication to the financial decision-making process and the analysis of value creation, but develops a more international scope and introduces new topics into the debate.

Fundamentals of Financial Management

The cash flow statement is one of the four main financial statements of a company. The cash flow statement can be examined to determine the short-term sustainability of a company. If cash is increasing (and operational cash flow is positive), then a company will often be deemed to be healthy in the short-term.
