In positive psychology, a flow state, also known colloquially as being in the zone, is the mental state of operation in which a person performing an activity is fully immersed in a feeling of energized focus, full involvement, and enjoyment in the process of the activity. In essence, flow is characterized by complete absorption in what one does, and a resulting loss in one's sense of space and ...

2.2. Quality assessment. Studies of CTP were predominantly cross-sectional and we assessed the quality of these studies on a 10-point scale based on a version of the Newcastle-Ottawa Scale (Wells et al., 2000) adapted to evaluate cross-sectional studies (Herzog et al., 2013). Assessment was based on dimensions including measurement of outcome, sample selection, and comparability of groups.
