In physics or engineering education, a Fermi problem, Fermi quiz, Fermi question, Fermi estimate, or order estimation is an estimation problem designed to teach dimensional analysis or approximation, and such a problem is usually a back-of-the-envelope calculation. The estimation technique is named after physicist Enrico Fermi as he was known for his ability to make good approximate ...

Fermi problem - Wikipedia

The problem with this solution is that it contains a race condition that can lead to a deadlock. Consider the following scenario: The consumer has just read the variable itemCount, noticed it's zero and is just about to move inside the if block.; Just before calling sleep, the consumer is interrupted and the producer is resumed.

Producer-consumer problem - Wikipedia

Text Structure Background. Text structure refers to how the information within a written text is organized. This strategy helps students understand that a text might present a main idea and details; a cause and then its effects; and/or different views of a topic.
