Mathematical logic is a subfield of mathematics exploring the applications of formal logic to mathematics. It bears close connections to metamathematics, the foundations of mathematics, and theoretical computer science. The unifying themes in mathematical logic include the study of the expressive power of formal systems and the deductive power of formal proof systems.

Times New Roman has a robust colour on the page and influences of European early modern and Baroque printing. The design is slightly condensed, with short ascenders and descenders and a high x-height (tall lower-case letters), all effects that save space and increase clarity.. The roman style of Plantin was loosely based on a metal type created in the late sixteenth century by the French ...
