I am an engineering student. I find the subjects like Physics, EElectronics, Chemistry, etc very interesting as they have enormous practical applications. But whenever I study mathematics I begin to wonder " Why am I doing this? Does it have any applications in the field of science and technology?" and I don't get interest. I stopped doing Maths.

Does Mathematics have any practical applications? | Yahoo ...

PRACTICAL MATH APPLICATIONS, 3E offers users math skills needed for business and personal applications. The text begins with a comprehensive review of the basic math functions (addition, subtraction, multiplication, and division) and progresses to fractions and decimals. Once the students have mastered the basics, they are introduced to practical applications that develop critical thinking skills.
