"Question Answering System using Open Source Software ". His continuous guidance with practical approach and valuable suggestions regarding the project helped me in visualize the project design. Without his guidance and efforts it wouldn't have been possible to come up with this project so effectively and efficiently.

Question Answering System using Open Source Software

framework for question-answering (QA) 2 Related Work systems. We present an open-source QA framework Q ANUS which researchers can There has been previous efforts in generalis- leverage on to build new QA systems eas- ing the architecture of QA systems.

QANUS: An Open-source Question-Answering Platform

Unlike out-of-the-box solutions, an open source question answering system is more scalable and customizable for your needs; A number of business user interfaces are available for entering and maintaining entities and patterns. These interfaces allow business users with no programming experience to enter and maintain common entities and question/response patterns.

Open Source Question Answering Systems | Search Technologies

We present an open-source QA framework QANUS which researchers can leverage on to build new QA systems easily and rapidly. The framework implements much of the code that will otherwise have been repeated across different QA systems. To demonstrate the utility and practicality of the framework, we further present a fully functioning factoid QA system QA-SYS built on top of QANUS.

QANUS: An Open-source Question-Answering Platform - arXiv

Open Source Question Answering Frameworks [closed] The only ones I'm currently aware of are Ephyra and Qanus, but they both seem like academic toys that haven't had much development and have since died. I couldn't even get Qanus to run, as it seems to have several dependencies that aren't terribly well documented.

Open Source Question Answering Frameworks - Stack Overflow

Question answering. Open-domain question answering deals with questions about nearly anything, and can only rely on general ontologies and world knowledge. On the other hand, these systems usually have much more data available from which to extract the answer.

Question answering - Wikipedia

It seems Ephyra and/or OpenEphyra has been deprecated of late, and Petr Baudis' YodaQA now appears to be the frontrunner, in terms of open source question answering systems. However, automatic is another story.

Are there any automatic open source question answering ...

openQA is an open source question answering framework that unifies approaches from several domain experts. The aim of openQA is to provide a common platform that can be used to promote advances by easy integration and measurement of different approaches.
