What is the Most probable problem of a federal system?

With the upcoming election upon us, topics get more controversial and the competition compounds exponentially. Anyone would be arguably better than Obama; the damage he has imposed on the country is reckless and there is no doubt that it is time for a leader who loves America and wants to "Make America Great Again."

In computer science, artificial intelligence (AI), sometimes called machine intelligence, is intelligence demonstrated by machines, in contrast to the natural intelligence displayed by humans and animals. Colloquially, the term "artificial intelligence" is used to describe machines that mimic "cognitive" functions that humans associate with other human minds, such as "learning" and "problem ...
