### **Psychology Answer**

Discursive psychology (DP) is a form of discourse analysis that focuses on psychological themes in talk, text, and images.. As a counter to mainstream psychology's treatment of discourse as a "mirror" for people's expressions of thoughts, intentions, motives, etc., DP's founders made the case for picturing it instead as a "construction yard" wherein all such presumptively prior and independent ...

Mirroring is the behaviour in which one person subconsciously imitates the gesture, speech pattern, or attitude of another. Mirroring often occurs in social situations, particularly in the company of close friends or family. The concept often affects other individuals' notions about the individual that is exhibiting mirroring behaviors, which can lead to the individual building rapport with others.

Harvard Business Review's Answer Exchange lists EIGHT problems that teams encounter: Absence of team identity. Members may not feel mutually accountable to one another for the team's objectives. There may be a lack of commitment and effort, conflict between team goals and members' personal goals, or poor collaboration. Difficulty making decisions.

### **Eight Common Problems Teams Encounter | Workplace Psychology**

Radical behaviorism was founded by B.F Skinner and agreed with the assumption of methodological behaviorism that the goal of psychology should be to predict and control behavior.. Skinner, like Watson, also recognized the role of internal mental events, and while he agreed such private events could not be used to explain behavior, he proposed they should be explained in the analysis of behavior.
