POGIL is a classroom and laboratory technique that seeks to simultaneously teach content and key process skills such as the ability to think analytically and work effectively as part of a collaborative team. A POGIL classroom or lab consists of any number of students working in small groups on specially designed guided inquiry materials.

Middle School Physics POGIL Activities - jessicawchan

Instead I picked a POGIL from the "High School Chemistry" book that presented the ideas through guided inquiry. At first, it went well. Kid got up and got moving. They were in small groups. I could hear through the conversations students talking and debating the meaning of the symbols and not talking about the basketball game coming up this Friday.

Use POGIL™ Activities for High School Biology to integrate scientific practices, reasoning and inquiry in the high school biology curriculum with 32 interactive, guided-inquiry learning activities on 7 major topics.

POGIL™ Activities for High School Biology - Flinn Scientific

Thus, I have developed and implemented "High School Chemistry POGIL Activities on a Dollar Store Budget" in my high school chemistry classroom. One POGIL activity that I have found very helpful for student understanding is called Electron Configuration. All that is required is paper, scissors, and an empty shoebox with a lid.

Periodical | Learning Electron Configuration via POGIL | AACT

4 POGIL™ Activities for High School Chemistry 16. For each of the following compounds, indicate whether or not your naming rules from Question 15 will apply. If not, explain why the naming rules do not apply. FeI 3 ICl 5 HBrO 4 17. Using the rules your group developed in Question 15, name each of the following molecular compounds.
