Answer: E. A, B, and C can be quickly ruled out since it shows the amplitude of the reflected and incident pulse to be the same size. An incident pulse would give up some of its energy to the transmitted pulse at the boundary, thus making the amplitude of the reflected pulse less than that of the incident pulse.

Key Concept Review (Answers to in-text "Concept Checks") Chapter 10 1. You can point to a wave crest and follow its progress, but only energy is moving long distances in ocean waves, not water mass. The water mass moves in closed circles (Figure 10.3) while energy can move for long distances. 2. Draw the anatomy of a wind wave, and then check Figure 10.2.
