Product Details. Flinn Scientific is excited to join with The POGIL Project™ to publish this series of student-centered learning activities for advanced placement biology. Integrate scientific practices, reasoning and inquiry in the AP Biology curriculum with 31 interactive, guided-inquiry learning activities in six major topic areas.

POGIL™ Activities for AP® Biology - Flinn Scientific

The researcher could develop a medicine that blocks the receptor on the cell that normally receives the signal. Another possible solution could be to develop a medicine that prevents the release of the signal. 11. Develop a medicine that mimics the signal (ligand) or a medicine that makes the cell release more of the signal than it normally would.
