Test time: 00:00:50 - Total test time: 90 Min.

Welcome to the Ohio FFA The FFA (formerly Future Farmers of America) is a national organization dedicated to preparing members for leadership and careers in the science, business and technology of agriculture.

Ohio FFA - FFA makes a positive difference in the lives of ...

Definition 1: The covariance between two sample random variables x and y is a measure of the linear association between the two variables, and is defined by the formula. Observation: The covariance is similar to the variance, except that the covariance is defined for two variables (x and y above) whereas the variance is defined for only one variable. In fact, $\text{cov}(x, x) = \text{var}(x)$.
