This title is also sold in the various packages listed below. Before purchasing one of these packages, speak with your professor about which one will help you be successful in your course.

A Survey of Mathematics with Applications, 10th Edition

Introduction. The training of domestic horses is traditionally reliant on negative reinforcement to prompt responses, together with positive reinforcement of desired responses and punishment of undesirable ones (McLean, 2005). These practices have changed little since domestication began some 6,000 years ago (Budiansky, 1997; Waran et al., 2002), and although effective, they were not developed ...
