### **Prentice Hall Economics Ch 17**

Economics (/ ɛ k ə ' n ɒ m i k s, iː k ə -/) is the social science that studies the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.

### **Economics - Wikipedia**

Family economics applies economic concepts such as production, division of labor, distribution, and decision making to the study of the family.It tries to explain outcomes unique to family—such as marriage, the decision to have children, fertility, polygamy, time devoted to domestic production, and dowry payments using economic analysis.

### **Family economics - Wikipedia**

Economics is one of the most important fields in the world, as it is the understanding of economics that can help make a person, a company, or even a country a wealthy place.
