The Science Teachers Association of New York State (STANYS) recommends these guidelines for use by science educators and students. They apply primarily to the use of non-human animals in instructional activities planned and supervised by teachers at the pre-college level.

**APPENDICES - New York State Education Department**

Chemistry is the science of matter and the changes it undergoes. The science of matter is also addressed by physics, but while physics takes a more general and fundamental approach, chemistry is more specialized, being concerned with the composition, behavior, structure, and properties of matter, as well as the changes it undergoes during chemical reactions.
