Pearson, as an active contributor to the biology learning community, is pleased to provide free access to the Classic edition of The Biology Place to all educators and their students.

Pearson - The Biology Place - Prentice Hall

Biology is the natural science that studies life and living organisms, including their physical structure, chemical processes, molecular interactions, physiological mechanisms, development and evolution. Despite the complexity of the science, there are certain unifying concepts that consolidate it into a single, coherent field. Biology recognizes the cell as the basic unit of life, genes as ...

A content note generally contains useful information and explanations that do not fit into the primary text itself. Content notes may be given as footnotes or endnotes or even a combination of both footnotes and endnotes. Such content notes may themselves contain a style of parenthetical referencing, just as the main text does.

Classroom Lessons. Bug Blitz - A Study in Biodiversity (T. Tomm, Havana Junior High, Havana, IL) I n past years our district had money for field trips to local nature areas for the Butterfly Brigade project; however, budget cuts made it difficult to pay for transportation. I decided to adapt the project to a smaller level using our school garden, which is a quick walk to our front schoolyard!

Fingerprints have been extensively investigated from many points of view. Many detailed studies on their embryogenesis exist, numerous papers have been written on the inheritance of certain fingerprint features and they have been statistically linked to all kinds of common human features (gender) and some more obscure ones (sexual orientation, high blood pressure).

Fingerprint formation - ScienceDirect

Fig. 1. A schematic drawing showing the chemical reaction of testosterone to estrogen catalysed by aromatase and the subsequent ways in which the activated estrogen receptor is able to influence the cell biology. The estrogen receptor is in a monomeric form capable of influencing target proteins in the cytosol as well other transcription factors inside the nucleus.
