Principles of Economics 4th Edition N Gregory Mankiw ...

- The principles of the economy as a whole are: – A country's standard of living depends on its ability to produce goods and services. – Prices rise when the government prints too much money. – Society faces a short-run trade-off between inflation and unemployment.

to accompany Principles of Economics,

Because the price is on the vertical axis, a change in price represents a movement along the demand curve. By contrast, income, the prices of related goods, tastes, expectations, and the number of buyers are not measured on either axis, so a change in one of these variables shifts the demand curve.
