AP Chemistry is an in-depth, fast-paced second-year chemistry course for advanced, science-oriented students. The course will provide students with a thorough grounding in chemical principles and quantitative reasoning, with an emphasis on inorganic chemistry.

AP Chemistry - Dr. VanderVeen

Chemistry is the scientific discipline involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances.. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it ...

Practice Problems with Circular Trigonometric Functions ...

Ab initio quantum chemistry methods are computational chemistry methods based on quantum chemistry. The term ab initio was first used in quantum chemistry by Robert Parr and coworkers, including David Craig in a semiempirical study on the excited states of benzene. The background is described by Parr. Ab initio means "from first principles" or "from the beginning", implying that the only ...

This section presents an abbreviated history of industrial MPC technology. Fig. 1 shows an evolutionary tree for the most significant industrial MPC algorithms, illustrating their connections in a concise way. Control algorithms are emphasized here because relatively little information is available on the development of industrial identification technology.
