### **Practice Problems with Circular Trigonometric Functions ...**

Ab initio quantum chemistry methods are computational chemistry methods based on quantum chemistry. The term ab initio was first used in quantum chemistry by Robert Parr and coworkers, including David Craig in a semiempirical study on the excited states of benzene. The background is described by Parr. Ab initio means "from first principles" or "from the beginning", implying that the only ...

This section presents an abbreviated history of industrial MPC technology. Fig. 1 shows an evolutionary tree for the most significant industrial MPC algorithms, illustrating their connections in a concise way. Control algorithms are emphasized here because relatively little information is available on the development of industrial identification technology.
