ENGINEERING. Project-Based-Learning is an instructional method in which students learn a range of skills and subject matter in the process of creating their own projects. Sometimes, these projects are solutions to a real-world problem. But what is most important in Project-Based-Learning is that students learn in the process of making something.

Epicurus (341-270 BC) was an ancient Greek philosopher and sage who founded a highly influential school of philosophy now called Epicureanism. He was born on the Greek island of Samos to Athenian parents. Influenced by Democritus, Aristotle, Pyrrho, and possibly the Cynics, he turned against the Platonism of his day and established his own school, known as "the Garden", in Athens.

Epicurus - Wikipedia

There's a reason Dr. Devon's recent video on Neurodiversity is going viral with over 28 million views. She offers a timely paradigm shift away from the deficit model and towards a universal acceptance and appreciation of neurodiversity as an evolutionary and societal advantage that is as critical to human existence as biodiversity.
