Recent reports and headlines have confirmed what we've learned over the past 10 years – the scale of the world's social and environmental problems can't be solved by government and philanthropic spending alone. Private capital can and must play a role. Investing behind the right themes, investors have an opportunity to 'do well by doing good.'

Misc thoughts, memories, proto-essays, musings, etc. The most recent SEP entry on logical empiricism really reinforces how much America benefited from WWII and the diaspora of logicians, mathematicians, philosophers and geniuses of every stripe from Europe (something I've remarked on while reading academic biographies). You can trace back so much in just computing alone to all of their work!
