This section presents the steps involved when you create a database manually. These steps should be followed in the order presented. Before you create the database make sure you have done the planning about the size of the database, number of tablespaces and redo log files you want in the database.

### Creating an Oracle Database manually through SQL Commands

Sorry guys, There is a quotation from Christopher Allen ?Oracle Database 10g, PL/SQL 101?:?There is a datatype named VARCHAR as well. In early versions of Oracle the maximum length of a VARCHAR column was 1,000 characters, later expanded to 4,000 characters for the datatype VARCHAR2.
