Introduction. The training of domestic horses is traditionally reliant on negative reinforcement to prompt responses, together with positive reinforcement of desired responses and punishment of undesirable ones (McLean, 2005). These practices have changed little since domestication began some 6,000 years ago (Budiansky, 1997; Waran et al., 2002), and although effective, they were not developed ...

Reinforcement, a key concept of behaviorism, is the primary process that shapes and controls behavior, and occurs in two ways, "positive" and "negative." In *The Behavior of Organisms* (1938), Skinner defined "negative reinforcement" to be synonymous with punishment, that is, the presentation of an aversive stimulus. Subsequently, in *Science and Human Behavior* (1953), Skinner redefined negative ...
