Hi, I'm Joe Rusk, co-owner of AquaGuard Foundation Solutions, and today I want to take just a minute or two to talk about purpose. Let's start with the definition of purpose, the reason for which something is done or created; the reason for which something exists.

About - AquaGuard Foundation Solutions

Outsulation® Plus MD. A high-performance Outsulation® system with inherent moisture drainage that incorporates continuous insulation (ci) and an air/water-resistive barrier for optimal building envelope performance.

Careers - Dryvit

Rain protection of mass walls, and understanding the rate the wall will get wet, the amount of moisture it is capable of storing, and the drying rate become important design considerations, as exceeding the safe storage capacity for long periods of time may create long term moisture problems for the surrounding substrates that might come in contact with the mass wall.

Wall Systems | WBDG - Whole Building Design Guide

Grease separators / traps should be installed in all locations where greases and oils from plant or animal origin are required to be removed from the wastewater stream. This applies to commercial and industrial applications, for example: Restaurants and fast food shops, butchers, pre-prepared meal production, Slaughterhouses, e.g.

Grease separator EasyClean - KESSEL - Leading in drainage

Exterior Roof, Walls & Windows: lean and tune oven ranges Days 3 Fall Yard & Exterior: No trip, fall, choking, sharp, edge hazards heck for signs of rodents, bats, roaches, termites Drain outdoor faucets and hoses lean window wells and check weep hole drainage lean gutters and downspouts Trim tree limbs a minimum of 6 feet away from

In passive solar building design, windows, walls, and floors are made to collect, store, reflect, and distribute solar energy in the form of heat in the winter and reject solar heat in the summer. This is

called passive solar design because, unlike active solar heating systems, it does not involve the use of mechanical and electrical devices.. The key to design a passive solar building is to ...

Passive solar building design - Wikipedia

Actually, it's a myth, but it's one that even I believed for many years. The common belief is that a layer of gravel in the bottom of pots will improve drainage and keep the soil from spilling out, and besides, that's how we've always done it, so it must be right.

Garden Myth: Gravel in Pots and Containers | Today's Homeowner

Vycor® Plus self-adhered flashing is composed of durable, crosslaminated, high-density polyethylene sheet, backed by an aggressive, pressure-sensitive rubberized asphalt adhesive.
