Activity 5.4 Calculating Properties of Solids Answer Key. Introduction. Have you ever stopped to think why it is that you are able to float in water? The reason has to do with the concept of buoyancy. The volume of water that your body displaces has weight. The weight of the displaced water pushes upward on you, while the weight of your body ...

Activity 5.4 Calculating Properties of Solids Answer Key

Conclusion 1. What is the purpose of construction lines? Object lines? A: construction lines are to help guide the creation of object lines they serve as a kind of rough draft that we use to look and find mistakes to fix before making an object line. Object line are the darker lines that indicate a finished part of the sketch and help get a better image of what the sketch is.
