This is Jeff Boulton's professional portal for his students and colleagues. Whether you need extra help in a course, resources to use as an educator, have general questions, or are one of his students, this is where you start your search. You'll find contact info, course outlines, notes, resources, self-marking quizzes, self-evaluations, weblinks and more.

Mr. Boulton's Website

The first section of this lesson encourages students to realize how substances can be measured with multiple units. Students begin with a quick 5 minute activity at their tables where they find the length of a pencil in both centimeters and millimeters and then read the volume of a water or soda bottle in both milliliters and ounces.
