Goods movement and freight distribution are widely underrepresented in regional science and geographical research. This is surprising since a large body of traditional spatial theory has been developed with respect to transportation costs or to trade areas: those aspects that were originally closely connected with the exchange of goods.

Prejudice is an unfair, intolerant, or unfavorable attitude toward a group of people. Prejudicial beliefs are virtually negative stereotypes. Social scientists view prejudice as the possession of negative attitudes targeted against members of a particular religious, racial, ethnic, social, and/or political group. These attitudes give rise to negative or unfavorable evaluations of individuals ...
