Discussion and analysis of systems can be of them as actual systems (e.g., of constituent physical processes in the case of natural physical systems) or as representational systems. Common representations or models of actual systems take such forms as written descriptions, physical models, mathematical models, flowcharts, tables of data and computer programs.

- Imagine you have to construct a building from the ground up. You wouldn't go into that process without a blueprint or a roadmap to guide you to your end goal. Well, the same goes for storyboarding an elearning experience. It's an essential part of any elearning project because it'll help you visualize your course concepts, communicate with your project team, and identify changes that need to ...

Discipline 2: Act on the Lead Measures. While a lag measure tells you if you've achieved the goal, a lead measure tells you if you are likely to achieve the goal. Apply disproportionate energy to the activities that drive your lead measures. This provides the leverage for achieving the lag measures.
