"Heritability" is defined as the proportion of variance in a trait which is attributable to genetic variation within a defined population in a specific environment. Heritability takes a value ranging from 0 to 1; a heritability of 1 indicates that all variation in the trait in question is genetic in origin and a heritability of 0 indicates that none of the variation is genetic.

Senator Rand Paul, supported by a number of other congressmen, has demanded that the 28 pages of the 9/11 Commission Report that explored the Saudi Arabian role in the terrorist attack be made public. The redacted section of the report, which apparently concluded that the Saudi government itself played no direct role in 9/11, nevertheless contained considerable evidence suggesting that wealthy ...

Molding Your Argument. Modeled on "Molding Your Prose", this course involves developing a sequence of arguments from the same topics by varying their structure to correspond to a range of pre-defined forms, from simple thesis statements and simple paragraphs, through the five-paragraph essay, the Thomistic scholastic model, and the Roman rhetorical outline applied by Cicero and his contemporaries.
