This article describes the form of brief therapy developed at the Brief Family Therapy Center. We have chosen a title similar to Weakland, Fisch, Watzlawick, and Bodin's classic paper, "Brief Therapy: Focused Problem Resolution" to emphasize our view that there is a conceptual relationship and a developmental connection between the points of view expressed in the two papers.

This page will compare the devices, development tools, and IDEs all together. However, to prevent this article from getting overwhelmingly long, I've created review pages for each device that cover way more details about the architecture — along with more complete testing notes, different benchmarking variations, and in-depth assessment.
