Most of my students had this game built and ready to play by the end of their class period. The game is initially built in Google Drawings. Students begin with a circle, duplicate it repeatedly, and then click on Arrange on the menu bar to distribute the circles horizontally and evenly. The game board has 42 circles altogether: 7 across, 6 down.

Street lighting luminaires carry their own IES classification depending upon their light distribution. The designations range from Type I for a long and narrow beam pattern typically used for narrow roads where the luminaire is at the edge of or over the roadway, up to Type IV as the roadway gets wider and or the poles are moved back further from the roadway.
