You see a psychologist and tell her that you are feeling depressed. The psychologist focuses on those activities you engage in currently around which you feel depressed, and she talks with you about changing these activities and thoughts that make you feel "down" and doing things which make you happy.

Schools of Psychology - AP Psychology Community

In psychology, identity is the qualities, beliefs, personality, looks and/or expressions that make a

person (self-identity) or group (particular social category or social group). [citation needed]
Categorizing identity can be positive or destructive. A psychological identity relates to self-image (one's mental model of oneself), self-esteem, and individuality.

Identity (social science) - Wikipedia

Strictly speaking, psychology of religion consists of the application of psychological methods and interpretive frameworks to the diverse contents of religious traditions as well as to both religious and irreligious individuals. The extraordinary range of methods and frameworks can be helpfully summed up regarding the classic distinction between the natural-scientific and human-scientific ...
