Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

5. Be aware of the free-response booklet instructions. It's helpful to know the actual AP Bio FRQ exam instructions: • Each answer should be written out in paragraph form; outline form is not acceptable. • Do not restate questions or provide more than the number of examples called for. • Diagrams alone will not receive credit, unless called for in the question.

### **AP Biology — bozemanscience**

Biology is the natural science that studies life and living organisms, including their physical structure, chemical processes, molecular interactions, physiological mechanisms, development and evolution. Despite the complexity of the science, there are certain unifying concepts that consolidate it into a single, coherent field. Biology recognizes the cell as the basic unit of life, genes as ...
