This page gives a list of domestic animals, also including a list of animals which are or may be currently undergoing the process of domestication and animals that have an extensive relationship with humans beyond simple predation. This includes species which are semi-domesticated, undomesticated but captive-bred on a commercial scale, or commonly wild-caught, at least occasionally captive ...

List of domesticated animals - Wikipedia

Animal Health has distinct advantages over human healthcare: The research and development process for animal health products is typically shorter and less expensive than for human therapeutics, as animal trials typically can be performed in the target species at an earlier stage, and shorter lifespans result in faster safety assessment and trial completion.

1. History of Oats. Oats have a long history as a grain for both animal and human consumption. Archeological explorations of the Grotta Paglicci cave in southeastern Italy, which was occupied by Upper Paleolithic hunter gatherers about 32,000 years ago, revealed significant traces of oat grains on a stone pestle found in the cave, well before the domestication of plants (Lippi, Foggi ...
