Class practical In this activity the rate of water uptake, due to transpiration, by a shoot from a woody plant, is measured by timing how long a bubble takes to move a set distance, in the capillary tube of an h-shaped potometer. Lesson organisation Decisions will depend on the availability of suitable potometers.

Measuring rate of water uptake by a plant shoot using a ...

I was on Prometrium for several years and switched to the generic Progesterone when it came available a couple months back. Now I'd totally swear by Prometrium cause it worked for me and as far as side affects go there were 2 and they weren't that bad and only lasted a couple hours after I took the pill so I took it at night and everything was fine.

Prometrium vs. Progesterone - what are your experiences?

by Kevin W. Posey. Have you ever felt the plant tour was a waste of time at the start of an audit? Adding aspects of the lean rapid plant assessment (RPA) tool to your audits can add significant

value to plant tours and your audit reports.

Plant Foods with Practically No Detectable B12 Analogue. Various studies have tested the foods in Table 1 for B12 analogues and found none. To my knowledge, other than in studies (described below) in which B12 or cow manure were carefully added to the growing medium of plants, no published study has shown any B12 analogues in any of these foods.
