In mathematics, a matrix (plural: matrices) is a rectangular array of numbers, symbols, or expressions, arranged in rows and columns. For example, the dimensions of the matrix below are  $2 \times 3$  (read "two by three"), because there are two rows and three columns:  $\begin{bmatrix} - & - \end{bmatrix}$ . Provided that they have the same size (each matrix has the same number of rows and the same number of columns as the other ...
