Pearson - The Biology Place - Prentice Hall

Animals enrich our lives in so many different ways. The Animal Life category is for questions and answers about animals of all types, including pets, sea life, and farm animals.

206,867 Questions Asked In Animal Life - Answers

As you may have noticed, a seed has no leaves. These leaves, that contain chlorophyll, are necessary for photosynthesis. So every seed comes with a starter package of nutrients in order to be able to build these first leaves, a stem, and roots. After that it can take care of itself, apart from minerals and water that it takes from the soil.

If plants can produce their own food during photosynthesis ...
