Populism refers to a range of political stances that emphasise the idea of "the people" and often juxtapose this group against "the elite". Within political science and other social sciences, various different definitions of populism have been used; some scholars propose rejecting the term altogether. There is no single definition of the term, which developed in the 19th century and has been ...

France's Payer Stakeholders. Once a drug has been approved for marketing in France, the manufacturer can set its price. For the new drug to be reimbursed by the French Social Security system (multiple public national health insurance funds), the Transparency Commission, or Commission de Transparence, must determine the comparative evidence-based value that in turn influences its price and ...

A research question is a highly focused question that addresses one concept or component of the hypothesis whereas the hypothesis itself is used to state the relationship between two variables.. The purpose of the study I am undertaking is to present non-experimental research and analysis on how an employee's relationship with their supervisor(s) has an effect on overall morale.
