Atomization and Spray Technology Focus on Spray Drying. In this introductory course you will gain a solid understanding of the atomization process and atomizer designs.

Atomization and Spray Technology - UW-Madison Engineering ...

The barometer question is an example of an incorrectly designed examination question demonstrating functional fixedness that causes a moral dilemma for the examiner. In its classic form, popularized by American test designer professor Alexander Calandra (1911-2006), the question asked the student to "show how it is possible to determine the height of a tall building with the aid of a barometer."
